Senator Allen will be running for re-election next year and it appears to me that in this section of Alabama he has been doing just what the majority of people want him to do. This sure can't hurt his re-election chances.

Along with Allen a number of state and county officials will be up for re-election. Of course most of us are aware that Governor Wallace is up for re-election in 1974. He will have some opposition but not one person has told me he thinks Wallace

The Lt. Governor's office is up for grabs also. The incumbent, Jere Beasley, ran on the coattails of George Wallace last time and won. Next year it will take a mastermind to get him back on that bandwagon. He did too much maneuvering for a full time job for folks to believe he is a Wallace man. It would keep Brewer's name before the public for another governor's race in 1978 and Brewer was an administration man during the short term of the late Governor Lurleen Wallace and worked smoothly with the Wallaces.

Attorney General Bill Baxley has made some enemies, but at this time he has a pretty good chance at re-election.

The three ladies, Mable Amos, Melba Till Allen and Agnes Baggett are playing musical chairs next year because they can't serve but two terms in the same office. Experts say only another woman could possibly beat any one of these long time

MARNING

TO NON SUBSCRIBERS...

A man who was too cheap to subscribe to his hometown newspaper sent his little boy to borrow his neighbor's copy. In his haste the boy ran over an \$80 hive of bees and in ten minutes he looked like a warty squash. His father ran to his assistance, and failing to notice the barbed wire fence, ran into that, cutting a hole into his anatomy as well as ruining a pair of \$10 slacks. The old cow took advantage of the hole in the fence and killed herself eating green corn. Hearing a racket, the wife ran out, upset a four gallon churn of cream into a basket of chicks, drowning the whole batch. In her haste she dropped a \$135 set of false teeth, which the family dog buried thinking it was a new type of bone. The baby, having been left alone, crawled through the spilled cream and into the parlor ruining a \$250 carpet. During the excitement the oldest daughter ran away with the hired man, a stray dog broke up Il setting hens, the calves got out and chewed the tails off four fine shirts on the clothes line, and the cat had a batch of kittens. All this just to save 10c. And in this case, the poor guy never did get to read that edition.
